Covered in section one

Meet your workshop facilitator, Damian Sian and learn about his:

1. Work history
2. Credentials
3. Background in accessibility
4. Important highlights in the field of accessibility

Work history

- Damian has worked in the accessibility field for 14 years for institutions such as Princeton University and Prudential Financial.
- He teaches an *Introduction to Web Accessibility* course at Rutgers University on the New Brunswick campus.
- Damian currently serves as a Principal Engineering Program Manager at Adobe on the Product Equity team.

Credentials

Damian has just about all the accessibility credentials one can obtain from the International Association of Accessibility Professionals (IAAP).

- Certified Practitioner of Accessibility Core Competencies (CPACC)
- Web Accessibility Specialist (WAS)
- Certified Practitioner of Web Accessibility (CPWA)
- Accessible Document Specialist (ADS)

Working on a UX Design accessibility certification IAAP and curriculum with TeachAccess.

Background in accessibility

- Front-end development (HTML and mostly React)
- Document accessibility (30 years in communications industry)
- Automated and manual testing (including building tools and process)
- Triage and remediation with globally distributed teams
- Assistive technologies (screen reader and voice control)
- Compliance, governance, and resource for legal
- Process and policy creation and enforcement
- Enablement and training (corporate adult learning)
- Curriculum and certification development

Two important highlights

Speaking at the United Nations was pretty cool.

But my recycling bins are by far my proudest achievement.

Section two: Workshop structure

How we'll facilitate our interactive this interactive journey.
