

Regular text contrast

That regular sized text is under the 4.5:1 at 2:1 contrast ratio #5692FF →.

This regular sized text is under the 4.5:1 at 3:1 contrast ratio #56C6FF and should fail MS A11y Checker but it's not for some reason. It does fail in MS Word though 🤖.

For some reason, PowerPoint will only pick up contrast issues for text inside a shape or the fill of a table cell.
