AI-generated text alternative

MS Word guessed the text alternative as “A black background with white text. AI-generated content may be incorrect.”

	A11y automated checker	Acrobat accessibility checker
Result	Not Detected	Not Detected

Should be decorative

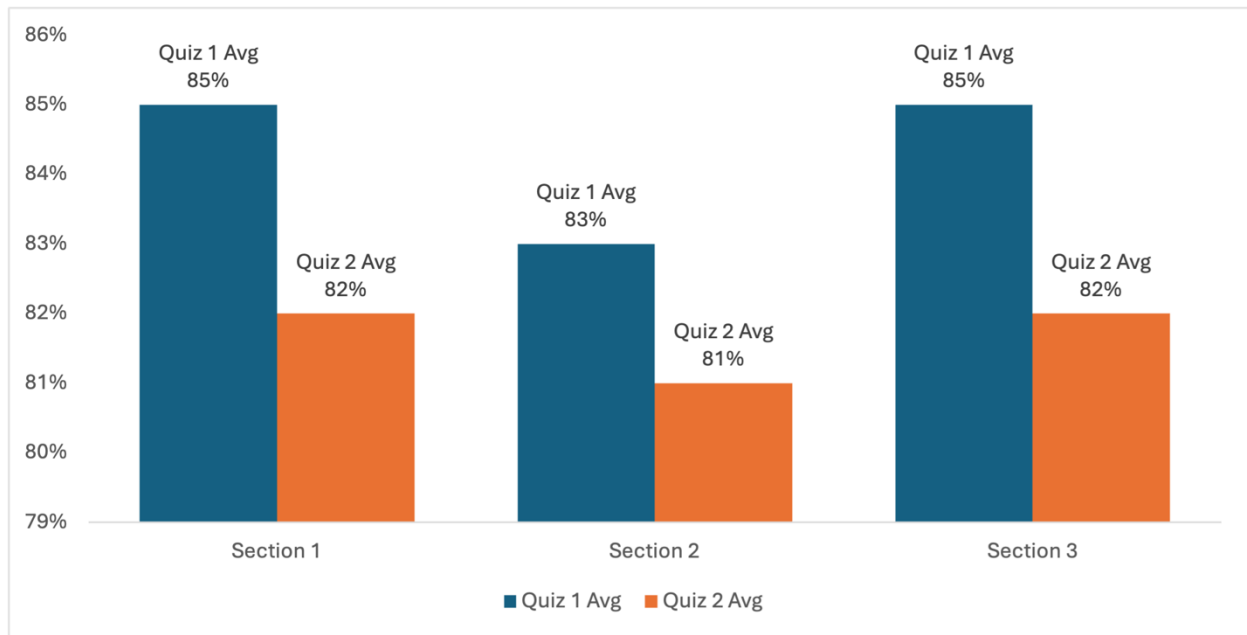

This decorative non-text content should be marked decorative, but it has a text alternative instead.

	A11y automated checker	Acrobat accessibility checker
Result	Not Detected	Not Detected

Poorly constructed text alternative: vague

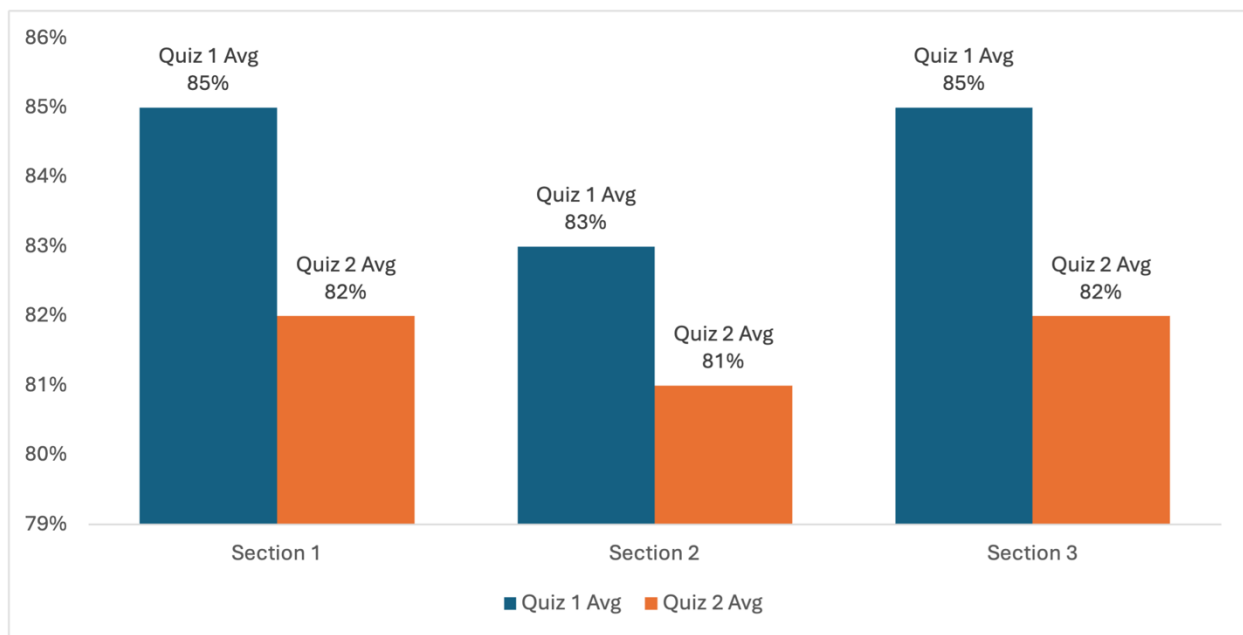

The text alternative here just reads “quiz averages.”

	A11y automated checker	Acrobat accessibility checker
Result	Not Detected	Not Detected

Dense alt text

The text alternative here reads: “Grouped bar graph comparing Quiz 1 and Quiz 2 averages across three sections. Section 1: 85% and 82%. Section 2: 83% and 81%. Section 3: 85% and 82%.” This text alternative is 156 characters, which Ally incorrectly flags when uploading an image in the Rich Content Editor, but not here in a Word doc.
